

You and Your Pharmacist

The Pharmaceutical Society of Ireland (PSI), as the pharmacy regulator, has developed a Patient Charter which tells you what you can expect from a community pharmacist and highlights how they can help you look after your health.

What can you expect from your community pharmacist?

Find further information and see how you can help your pharmacist meet these expectations in the **Patient Charter leaflet**, on www.psi.ie or phone **01 218 4000**.
